

Central Lancashire Local Plan Issues and Options Consultation

November 2019

Annex 4 – Site Proposals in South Ribble:
Howick and Priory

Introduction

As set out in Section 8 of the Central Lancashire Local Plan Issues and Options Consultation document (November 2019), we are currently looking for land to provide new homes, jobs and facilities in Central Lancashire to meet the predicted needs of a growing population, to 2036.

This section of the Annex comprises all sites which have been put forward for consideration in the South Ribble area in this specific ward. These site suggestions were submitted through two Call for Sites exercises, during which stakeholders (including interested bodies such as landowners, developers and the public) had the opportunity to present land in their interest or ownership that was considered potentially suitable for future development. In addition, further sites were suggested by public bodies, which have also been included in this Annex for consideration.

We are seeking your comments on what has been submitted, and which sites you think should be taken forward.

How to Read this Document

Sites are first grouped into electoral wards in South Ribble, then listed by their SHELAA reference in ascending order. (The SHELAA refers to the Strategic Housing and Employment Land Availability Assessment, the exercise that was undertaken prior to the sites being presented at this Issues and Options stage.)

If you are looking for a specific site with a Call for Sites reference (e.g. CLCFS00001) you can find its corresponding SHELAA reference in the table to cross reference. If sites do not have a Call for Sites reference, these are sites which have been added in by South Ribble Council.

All sites are pictured with a thick boundary colouration and hashing specific to their proposal type, these are detailed below. Sites also have an inset map in the bottom left corner, which shows the surrounding area at a larger scale to better display the area in context. All sites are shown at a scale appropriate to the size of the site, [see this Ordnance Survey \(OS\) guide to map scales](#) for help. North is always at the top of the page, indicated by the North arrow in the bottom right corner.
